

Title	React Native Developer	Experience	4+ Years
Location	Gurugram/Remote	Engagement Type	Full Time
Skills	React Native Redux Typescript HTML/CSS Kanban	CTC	-

Job Summary:

We are looking for a React Native developer Developer interested in building performant mobile apps on both the iOS and Android platforms, will be responsible for architecture and building these applications, as well as coordinating with the teams responsible for other layers of the product infrastructure. Building a product is a highly collaborative effort, and as such, a strong team player with a commitment to perfection is required.

- Roles & Responsibilities:**
- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
 - Leverage native APIs for deep integration with both platforms
 - Diagnose and fix bugs and performance bottlenecks for performance that feels native
 - Maintain code and write automated tests to ensure the product is of the highest quality
 - Transition existing React web apps to React Native

- Qualifications:**
- Minimum 5 years experience in mobile development using React Native
 - Extensive understanding of TypeScript Programming Language, and CSS, HTML
 - Experience with both iOS and Android platforms
 - Familiarity with state/data management libraries (Redux/MobX)
 - Understanding of user interface and responsive design
 - Familiarity with the platform's basic features, such as location services, push notifications
 - Experienced in Agile approaches using Kanban

- Competencies & Behavior:**
- Excellent oral and written skills in English
 - Creative talents and the ability to solve tough problems
 - Ability to work across concurrent projects
 - Ability to communicate effectively via multiple channels (verbal, written, etc.)
 - Ability to pay attention to detail and accurately follow procedure
